1. A motorized engineer column passed through NEUBRANDENBURG (N 54/U 66) and proceeded towards FUENFEICHEN (N 54/U 56). 50X1-HUM
2. Twenty-two motor vehicles, either prime movers with trailers carrying pontoon sections or trucks carrying engineer equipment, were observed. 50X1-HUM
3. The engineer unit whose motor vehicles were very dirty was allegedly to be quartered in the cantonment at FUENFEICHEN. 50X1-HUM

Comment: Soviet tank units (possibly Hq units of the Second Gds Meoz Army ?) were previously observed to be quartered in the FUENFEICHEN Cantonment, south of NEUBRANDENBURG.

The observed engineer convoy is believed to have been a component unit of the 413th Indep Pontoon Bridge Regt of the Second Gds Meoz Army, which returned to its military post from summer maneuvers. 50X1-HUM
